Job Description – PV Solar Installer

Posted Date: 5/14/15

Application Deadline: 5/29/15

About The Job:

If you have a high level of energy, motivated, keen to learn and you are looking to join a team that is passionate, engaging and energetic about solar energy, we would like to meet you. The selected candidate will be presented with a wonderful opportunity to develop their career path within the solar industry and will be provided access to health care, dental and a 401k plan.

Job Responsibilities:

- Install, racking, panels, and stand offs for photovoltaic solar systems.
- Install PV quick mounts.
- Install wiring and inverters- String and Micro.
- Organize and maintain system components in warehouses, trucks and at job sites.
- Clean up of job site.
- Attend training sessions on new products, installation methodology and safety.

Candidate Requirements:

- No specific PV experience required.
- Knowledge of electrical installation, roofing and general construction is required.
- 1+ year of experience working on roofs (you must love heights).
- Superb customer service skills
- A high level of professionalism and a positive demeanor is a MUST.
- Physical mobility of upper and lower body.
- Ability to work in various positions.
- Capability to climb ladders, stairs, and work on rooftops.
- Capability to lift 50 lbs. of weight frequently throughout assigned workday.
- Valid state driver's license and pristine driving record.
- Previous experience installing photovoltaic systems preferred.
- North American Board of Certified Energy Practitioners (NABCEP) certification preferred.
